

BASELINE SURVEY TOOL

Consent

*

We are very thankful that you have agreed to participate in this survey. We are working with CIMMYT - the wheat and maize improvement center. This survey will guide the research activities we have initiated in the district under the initiative "Transformational agroecology across food, land, and water systems".

The survey will take approximately one hour. We will leave our office's email address and phone number with you in case you wish to make a comment about the research, share additional information and insight, or to ask us some additional questions. No compensation will be provided for your time.

All information solicited from you, your household or your associates will be kept strictly confidential. We shall not in any way disclose you, your household or your associates personally in resultant documents, or data sharing processes. The overall research results will be published and shared with the general public and decision makers.

Participation in this discussion is voluntary. You have the opportunity to withdraw at any time or refuse any component(s) of the research without repercussion or penalty. Please let me know if you consent to being a part of this research by saying, "I consent to participating in this research".

Do you have any questions before we begin? You can ask questions at any point.

OK

General information

Has this farm already been interviewed earlier or is this a new farm?

- Already interviewed
 New interviewee

Head of the household

How old is the head of the household?

What is the sex of the head of the household?

- Male
- Female

What is the marital status of the head of the household?

- Married
- Widow or widower
- Divorced
- Single

What is the type of marriage?

- Monogamous
- Polygamous

What is the education level of the head of the household?

- Primary level
- Secondary level
- Tertiary level
- Vocational school

Respondent**Is the respondent the head of the household?**

- No
- Yes

What is the relation of the respondent to the head of the household?

- Spouse (Husband/Wife)
- Child (Son/Daughter)
- Grand-child
- Parent (Father/Mother)
- Other

Specify the relation to the head of the household

How old is the respondent?

What is the sex of the respondent?

- Male
- Female

What is the education level of the respondent?

- Primary level
- Secondary level
- Tertiary level
- Vocational school

Household composition

Total number of adult males aged 61 or more

Total number of adult females aged 61 or more

Total number of adult males aged 25-60

Total number of adult females aged 25-60

Total number of young males, aged 15-25

Total number of young females, aged 15-25

Total number of children and teens, aged 3-14

Total number of infants of age 0 to 2

Are there relatives outside the household who help financially?

- No
- Yes

Are there relatives outside the household who depends on the household financially (e.g., elderly, sick)?

No

Yes

Assets and land

Nb of tractors?

0

Nb of two-wheel tractors?

Main field crops

Area (ha) cropped in maize during the season 2021-22?

0

Area (ha) cropped in sorghum during the season 2021-22?

0

Area (ha) cropped in pearl millet during the season 2021-22?

0

Area (ha) cropped in finger millet during the season 2021-22?

0

Area (ha) cropped in sesame during the season 2021-22?

0

Area (ha) cropped in groundnut during the season 2021-22?

0

Area (ha) cropped in tobacco during the season 2021-22?

0

Area (ha) cropped in cotton during the season 2021-22?

0

Area (ha) cropped in irish potato during the season 2021-22?

0

Area (ha) cropped in sweet potato during the season 2021-22?

0

Area (ha) cropped in sunflower during the season 2021-22?

0

Area (ha) cropped in soybean during the season 2021-22?

0

Area (ha) cropped in common bean during the season 2021-22?

0

Area (ha) cropped in cowpea during the season 2021-22?

0

Area (ha) cropped in roundnut during the season 2021-22?

0

Other crops

Did you grow other main crops (not intercrops) during the season 2021-22?

- No
 Yes

List other main crops you grew during the season 2021-22 (separated by commas)

Intercrops

Did you practice intercropping in some of your main crops during the season 2021-22?

- No
 Yes

What were the intercrop species?

- Common bean
 Cowpea
 Groundnut
 Lablab
 Pigeonpea
 Mucuna / Velvet bean
 Pumpkin
 Watermelon
 Local cucumber
 Other

List other intercrops (separated by commas)

Individual garden

Do you have an individual garden?

- No
 Yes

Area (ha) of the garden?

Is it a permanent or seasonal garden?

- Seasonal
- Permanent

What source of irrigation do you use for your garden?

- Well
- Stream, river, dam, lake
- Borehole
- Wetland

What type of irrigation do you use on your garden?

- Hand bucket
- Hose
- Flood irrigation
- Furrow irrigation
- Sprinkler irrigation
- Drip irrigation

What type of water extraction do you use on your garden?

- Manual
- Solar pump
- Diesel pump
- Petrol pump

Is your garden equipped with a water tank?

- No
- Yes

Do you harvest rainwater?

- No
- Yes

What crops did you grow in your garden over the last 12 months?

- Maize
- Common bean
- Sweet potato
- Tomato
- Onion
- Garlic
- Cabbage
- Rape
- Kovo
- Carrot
- Occra
- Watermelon
- Cucumber
- Butternut
- Sugar cane
- Banana
- Pawpaw
- Nartje
- Other

List other crops you grew in your individual garden (separated by commas)

Quantity (kg) of basal fertilizer applied to the garden in the last 12 months?

Quantity (kg) of topdressing fertilizer applied to the garden in the last 12 months?

Quantity (kg) of manure applied to the garden in the last 12 months?

Quantity (kg) of compost applied to the garden in the last 12 months?

Community garden

Do you have access to a community garden?

- No
 Yes

Area (ha) of the community garden you have access to?

What crops did you grow in your section of the communal garden over the last 12 months?

- Maize
 Common bean
 Sweet potato
 Tomato
 Onion
 Garlic
 Cabbage
 Rape
 Kovo
 Carrot
 Occra
 Watermelon
 Cucumber
 Butternut
 Sugar cane
 Banana
 Pawpaw
 Nartje
 Other

List other crops you grew on your portion of community garden (separated by commas)

Land clearance

Did you open up new fields (i.e., parcel of land never cultivated before) in the last 5 years?

- No
 Yes

Did you open up new fields (i.e., parcel of land never cultivated before) during the season 2021-22?

- No
 Yes

Area (ha) cleared during the season 2021-22?

For what crop?

- Maize
 Sorghum
 Pearl Millet
 Finger Millet
 Sesame
 Groundnut
 Tobacco
 Cotton
 Irishpotato
 Sweetpotato
 Sunflower
 Soybean
 Common bean
 Cowpea
 Roundnut
 Other

List other crops (separated by commas)

Change in soil health over the past 5 years:

Change in soil health over the past 5 years:

Soil compaction

Tree cover

Maize

Main mode of land preparation for maize in the season 2021-22?

- Tractor
- Draught animals
- Hand hoes

Quantity (kg) of basal fertilizer applied to maize in the season 2021-22?

Quantity (kg) of topdressing fertilizer applied to maize in the season 2021-22?

Quantity (kg) of manure applied to maize in the season 2021-22?

Quantity (kg) of compost applied to maize in the season 2021-22?

Main mode of maize weeding in the season 2021-22?

- No weeding
- Hand weeding
- Cultivation with animal traction
- Herbicide

Total number of pesticide treatments applied to maize in the season 2021-22?

Did you use biopesticides on your maize crop in the season 2021-22?

- No
- Yes

Total maize production in the season 2021-22 (kg)?

Use of maize residues (% weight)

Burnt

Retained in the field

Grazed in the field

Harvested for feed

Harvested for compost

Harvested for fuel

Harvested for fencing

What was the most important animal species - large or small, domestic or wild - that caused damages to your maize crop in the season 2021-22?

1st choice

- None
- Goats
- Guinea fowls
- Goose
- Buffaloes
- Kudus and other large size antelopes
- Duikers and other small size antelopes
- Vervets
- Porcupines
- Guinea fowls, francolins and other ground dwelling birds
- Other flying birds
- Fall armyworm
- Other insects
- Cattle
- Sheep
- Turkeys
- Pigeons
- Hippopotamuses
- Impalas and other medium size antelopes
- Baboons
- Civets, Jackals and other small carnivores
- Rats and mice
- Stemborers and other catterpillars
- Donkeys
- Pigs
- Ducks
- Elephants
- Wild pigs
- Squirrels and other rodents
- Quelea birds
- Crickets
- Aphids

Cotton

Main mode of land preparation for cotton in the season 2021-22?

- Tractor
- Draught animals
- Hand hoes

Quantity (kg) of basal fertilizer applied to cotton in the season 2021-22?

Quantity (kg) of topdressing fertilizer applied to cotton in the season 2021-22?

Quantity (kg) of manure applied to cotton in the season 2021-22?

Quantity (kg) of compost applied to cotton in the season 2021-22?

Main mode of cotton weeding in the season 2021-22?

- No weeding
- Hand weeding
- Cultivation with animal traction
- Herbicide

Total number of pesticide treatments applied to cotton in the season 2021-22?

Did you use biopesticides on your cotton crop in the season 2021-22?

- No
- Yes

Total cotton production in the season 2021-22 (kg)?

What was the most important animal species - large or small, domestic or wild - that caused damages to your cotton crop in the season 2021-22?

1st choice

- None
- Goats
- Guinea fowls
- Goose
- Buffaloes
- Kudus and other large size antelopes
- Duikers and other small size antelopes
- Vervets
- Porcupines
- Guinea fowls, francolins and other ground dwelling birds
- Other flying birds
- Fall armyworm
- Other insects
- Cattle
- Sheep
- Turkeys
- Pigeons
- Hippopotamuses
- Impalas and other medium size antelopes
- Baboons
- Civets, Jackals and other small carnivores
- Rats and mice
- Squirrels and other rodents
- Donkeys
- Pigs
- Ducks
- Elephants
- Wild pigs
- Quelea birds
- Millipedes
- Crickets
- Stemborers and other catterpillars
- Aphids

2nd choice

- None
- Goats
- Guinea fowls
- Goose
- Buffaloes
- Kudus and other large size antelopes
- Duikers and other small size antelopes
- Vervets
- Porcupines
- Guinea fowls, francolins and other ground dwelling birds
- Other flying birds
- Fall armyworm
- Other insects
- Cattle
- Sheep
- Turkeys
- Pigeons
- Hippopotamuses
- Impalas and other medium size antelopes
- Baboons
- Civets, Jackals and other small carnivores
- Rats and mice
- Squirrels and other rodents
- Donkeys
- Pigs
- Ducks
- Elephants
- Wild pigs
- Quelea birds
- Millipedes
- Crickets
- Stemborers and other catterpillars
- Aphids

3rd choice

- None
- Goats
- Guinea fowls
- Goose
- Buffaloes
- Kudus and other large size antelopes
- Duikers and other small size antelopes
- Vervets
- Porcupines
- Guinea fowls, francolins and other ground dwelling birds
- Other flying birds
- Fall armyworm
- Other insects
- Cattle
- Sheep
- Turkeys
- Pigeons
- Hippopotamuses
- Impalas and other medium size antelopes
- Baboons
- Civets, Jackals and other small carnivores
- Rats and mice
- Millipedes
- Stemborers and other catterpillars
- Donkeys
- Pigs
- Ducks
- Elephants
- Wild pigs
- Squirrels and other rodents
- Quelea birds
- Crickets
- Aphids

What was the most important market for your cotton crop in the season 2021-22?

1st choice

- None
- Local collection point
- GMB
- Other
- Farm gate
- Local warehouse
- Contract company
- Village market
- Local business centre
- Private buyers from Mozambique

Have you used the following improved crop practices in the past 12 months?

Practices:

No

Yes

Quality certified seeds (i.e., trusted source, guaranteed minimum germination rate)	<input checked="" type="radio"/>	<input type="radio"/>
Community seed banks	<input checked="" type="radio"/>	<input type="radio"/>
Drought-tolerant varieties	<input checked="" type="radio"/>	<input type="radio"/>
Small grains	<input checked="" type="radio"/>	<input type="radio"/>
Early planting	<input checked="" type="radio"/>	<input type="radio"/>
Crop rotation	<input checked="" type="radio"/>	<input type="radio"/>
Intercropping	<input checked="" type="radio"/>	<input type="radio"/>
Cover crops (i.e., crops planted specifically to control erosion and/or increase soil fertility)	<input checked="" type="radio"/>	<input type="radio"/>
Mulching	<input checked="" type="radio"/>	<input type="radio"/>
Integrated pest management (i.e., scouting and use of several control methods in addition to pesticides)	<input checked="" type="radio"/>	<input type="radio"/>
Compost/Manure	<input checked="" type="radio"/>	<input type="radio"/>
Drip/Micro irrigation	<input checked="" type="radio"/>	<input type="radio"/>
Optimum plant density (e.g., gap filling, planting at the right density, including through the use of mechanical planters)	<input checked="" type="radio"/>	<input type="radio"/>
Tree planting on-farm	<input checked="" type="radio"/>	<input type="radio"/>
Tree retention (natural regeneration) on-farm	<input checked="" type="radio"/>	<input type="radio"/>

Livestock ownership

How many adult indigenous cattle do you currently own?

0

How many improved beef cattle do you currently own?

0

How many improved dairy cattle do you currently own?

0

How many juvenile cattle (< 3 yr old, indigenous and improved) do you currently own?

0

How many donkeys do you currently own?

0

How many indigenous goats do you currently own?

0

How many improved goats do you currently own?

Have you used the following improved livestock practices in the past 12 months?

Practices:	No	Yes
Improved livestock breeds	<input checked="" type="radio"/>	<input type="radio"/>
Improved animal shelters (for goats, poultry or cattle: enough space, good ventilation, protecting from the sun, dry floor)	<input checked="" type="radio"/>	<input type="radio"/>
Water infrastructure for livestock at homestead (e.g. water trough)	<input checked="" type="radio"/>	<input type="radio"/>
Routine vaccinations by Veterinary Officer or Paravet	<input checked="" type="radio"/>	<input type="radio"/>
Home vaccinations (farmer administered vaccinations)	<input checked="" type="radio"/>	<input type="radio"/>
Castration	<input checked="" type="radio"/>	<input type="radio"/>
Deworming	<input checked="" type="radio"/>	<input type="radio"/>
Dipping	<input checked="" type="radio"/>	<input type="radio"/>
Spraying livestock at home	<input checked="" type="radio"/>	<input type="radio"/>
Use of services of community animal health worker (Paravet)	<input checked="" type="radio"/>	<input type="radio"/>
Homemade animal feeds made with locally available ingredients (e.g. for poultry)	<input checked="" type="radio"/>	<input type="radio"/>
Fodder production for ruminants (e.g. velvet bean, lablab)	<input checked="" type="radio"/>	<input type="radio"/>
Fodder preservation for ruminants (e.g. Silage making)	<input checked="" type="radio"/>	<input type="radio"/>
Survival feeding (feeding of productive livestock in lean season)	<input checked="" type="radio"/>	<input type="radio"/>
Animal feed supplied by feed companies	<input checked="" type="radio"/>	<input type="radio"/>
Artificial insemination	<input checked="" type="radio"/>	<input type="radio"/>
Pen fattening	<input checked="" type="radio"/>	<input type="radio"/>

Food sources

Most important food sources

1st choice

- Own production
- Remittances
- Cash purchase from income
- Food aid
- Casual labour for food
- Purchase from cash transfer

2nd choice

- Own production
- Remittances
- Cash purchase from income
- Food aid
- Casual labour for food
- Purchase from cash transfer

3rd choice

- Own production
- Remittances
- Cash purchase from income
- Food aid
- Casual labour for food
- Purchase from cash transfer

Food security

Food security situation in the past 12 months:	Low	Medium	High
November 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
October 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
September 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
August 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
July 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
June 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
May 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
April 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
March 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
February 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
January 2022	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
December 2021	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

24 hour household diet diversity

Were the following food items consumed by the household in the last 24 hours:	No	Yes
Cereals	<input checked="" type="radio"/>	<input type="radio"/>
White roots and tubers	<input checked="" type="radio"/>	<input type="radio"/>
Vitamin A rich vegetables and tubers	<input checked="" type="radio"/>	<input type="radio"/>
Dark green leafy vegetables	<input checked="" type="radio"/>	<input type="radio"/>

- Other vegetables
- Vitamin A rich fruits
- Other fruits
- Organ meat
- Flesh meat
- Eggs
- Fish and seafood
- Legumes, nuts and seeds
- Milk and milk products
- Oils and fats
- Sweets
- Spices, condiments, beverages
- Outside meal or snack

Income sources

Most important income sources

1st choice

- Crop sales
- Remittances
- Artisan
- Livestock sales
- Salary or wages
- Trade
- Casual labour
- Smallscale mining
- Pension

2nd choice

- Crop sales
- Remittances
- Artisan
- Livestock sales
- Salary or wages
- Trade
- Casual labour
- Smallscale mining
- Pension

3rd choice

- Crop sales
- Remittances
- Artisan
- Livestock sales
- Salary or wages
- Trade
- Casual labour
- Smallscale mining
- Pension

Relationships

How close do you feel to: I don't know Not at all close Not close Close Very close

Individuals from your community?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Individuals from another community?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The leaders of the community?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
NGOs	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Local government officials?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
National government officials	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Resources

In difficult times, will your household be able to lean on:

I don't know

No

Yes

Individuals from your community?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Individuals from another community?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The leaders of the community?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
NGOs	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Local government officials?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
National government officials	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

Trust

In difficult times, are the following likely to take advantage of you:

I don't know

No

Yes

Individuals from your community?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Individuals from another community?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
The leaders of the community?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
NGOs	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Local government officials?	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
National government officials	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

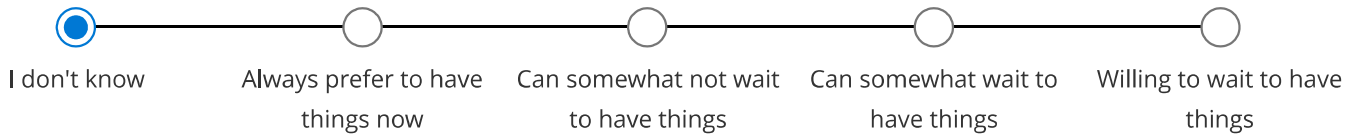

Likelihood of agroecological transition

Do you perceive yourself as someone who is generally willing to take risks, or do you try to avoid taking risks?

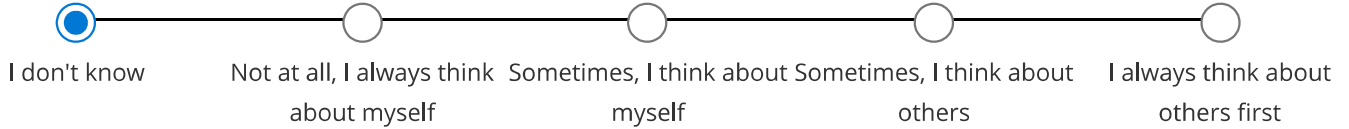

————— ————— ————— —————

I don't know Not at all willing to take risks Somewhat not willing to take risks Somewhat willing to take risks Very willing to take risks

Do you perceive yourself as someone who is generally impatient and want to have 'things' now, or can you wait to get them later?

Do you perceive yourself as someone who generally thinks about the well-being of others in the village?

Agroecology is an approach to food production to harness nature's goods and services whilst minimizing adverse environmental impacts, and to improve farmer-consumer connectivity, knowledge co-creation and inclusive relationships among food system actors.

How likely would you be to sign up for contract farming that requires you to apply agroecological principles in your farm?

How likely would you be to apply agroecological principles in your farm if there was a ready market that demands agroecological goods and services?

How likely would you be to apply agroecological principles in your farm if there was a policy directive that required you to change ?

What kind of premium would you be ready to pay for goods produced agroecologically, compared to similar goods produced conventionally?

Disruption due to COVID-19

Most important disruption due to COVID-19

1st choice

- None
- Lack of agrochemicals
- Lack of labour for weeding
- Disruption of sales of crop products
- Disruption of other income generating activities
- High seed cost
- Lack of labour for crop establishment
- Lack of labour for harvesting
- Disruption of sale of livestock products
- High fertilizer cost

2nd choice

- None
- Lack of agrochemicals
- Lack of labour for weeding
- Disruption of sales of crop products
- Disruption of other income generating activities
- High seed cost
- Lack of labour for crop establishment
- Lack of labour for harvesting
- Disruption of sale of livestock products
- High fertilizer cost

3rd choice

- None
- Lack of agrochemicals
- Lack of labour for weeding
- Disruption of sales of crop products
- Disruption of other income generating activities
- High seed cost
- Lack of labour for crop establishment
- Lack of labour for harvesting
- Disruption of sale of livestock products
- High fertilizer cost

Disruption due to Ukraine-Russia war

Are you aware of the current Ukraine-Russia war?

- No
- Yes

Do you feel it has impacted your household?

- No
- Yes

In what way?

1st choice

- High food prices
- High land preparation costs
- High fertilizer costs
- High grinding mill costs
- High transport costs

2nd choice

- High food prices
- High land preparation costs
- High fertilizer costs
- High grinding mill costs
- High transport costs

3rd choice

- High food prices
- High land preparation costs
- High fertilizer costs
- High grinding mill costs
- High transport costs
